TRAINING DELIVERY & SPECIALIST TALENT

YOUR CLIENTS. YOUR COMMITMENTS. OUR CAPABILITY.

The execution partner for specialist trainer sourcing, flexible deployment and corporate training delivery.

From a single hard-to-find trainer to multi-location training programs. Engage us at the level your requirement demands.

INDIA · REGIONAL & INTERNATIONAL SOURCING REQUIREMENTS

Sai Ram Muppalla / Founder & Strategic Partnerships

EXECUTION CAPACITY, ON DEMAND

More capability. Less operational complexity.

We help corporate training companies, L&D teams, EdTech providers, institutions and skilling partners fulfil demanding training requirements without expanding their permanent delivery teams.

01 / FIND

Specialist trainer sourcing

Requirement-specific identification, screening and profile sharing, including niche subject matter experts.

02 / DEPLOY

Flexible trainer engagement

Referral-based or centralized billing arrangements, with delivery ownership agreed upfront.

03 / EXECUTE

Managed training support

Sub-vendor fulfillment, white-label delivery, multi-batch coordination and agreed reporting.

04 / RECOVER

Program recovery & design

Replacement sourcing, continuity planning, curriculum, practical assessments and program design.

3,000+
Students trained or mentored

200+
Student projects supported

6 colleges
MSME-linked EDP engagements

47 domains
Ongoing AP skilling mobilization

Figures reflect cumulative founder-level experience. MSME EDP work was undertaken through a sub-vendor engagement; 47-domain mobilization is an ongoing initiative, not completed delivery or a direct government award.

SELECTED SOURCING REQUIREMENTS

Where specialist expertise matters.

Representative previous requirements across industrial, enterprise and professional training, including international sourcing briefs.

POWER GENERATION

Hydroelectric power

Technical trainer sourcing for hydro-sector engineers, practical learning and specialist instructor-led programs.

PROCESS MANUFACTURING

Cement production

Process and production expertise for plant operations, CCR operators, shift teams and field engineers.

RENEWABLE ENERGY

Solar energy

Specialist solar trainer sourcing for renewable-energy training requirements.

DUBAI, UAE / MIDDLE EAST

HRBP trainer

International sourcing requirement for a Human Resources Business Partner (HRBP) trainer.

LIFE SCIENCES

Pharma & biotechnology

GMP, GxP, QA/QC, pharmaceutical manufacturing and research-oriented training expertise.

BANKING & ENTERPRISE

SAP FPSL

Specialized resource mapping for banking and insurance financial subledger expertise.

PROFESSIONAL DEVELOPMENT

HRDP & AAFD

Role-specific trainer sourcing and mapping for corporate development requirements.

CUSTOMER OPERATIONS

Sales & BPO

Trainer sourcing for sales, CRM, communication, customer service and employability programs.

Portfolio reflects previous requirements and sourcing exposure; it is not a claim that every assignment was delivered. Availability and final deployment are engagement-specific.

FLEXIBLE BY DESIGN

Just the trainer. Or the entire delivery.

Not every requirement needs an end-to-end execution partner. Choose the model that fits your existing team and delivery responsibilities.

01 Trainer sourcing & referral

We identify, screen and share suitable profiles. You manage the trainer relationship and delivery directly after selection.

COMMERCIAL MODEL

Mutually agreed sourcing or finder's fee for successful engagements, informed by prevailing market practices.

02 Trainer deployment

We source the trainer and facilitate engagement. Your team retains operational control of the training assignment.

COMMERCIAL MODEL

Client payments are routed through Maker on Wheels, which coordinates trainer payments under agreed terms.

03 Managed & white-label delivery

We take on agreed sourcing, coordination and delivery responsibilities, under your brand where required.

COMMERCIAL MODEL

Project-based quotation aligned with scope, duration, resources and responsibilities.

Your relationship stays yours.

We respect partner-led client ownership and agreed communication boundaries. Commercials, billing, confidentiality and non-circumvention can be mutually defined before engagement.

No fixed fee or percentage is implied. Specific rates, payment milestones, taxes, travel costs and responsibilities are confirmed for each assignment.

FROM BRIEF TO DEPLOYMENT

Clear process. Accountable partnerships.

01 **Define the requirement**
Share domain, audience, location, dates, mode, expected outcomes and commercial context.

02 **Map & qualify talent**
Assess subject experience, training background, audience fit, language, availability and logistics.

03 **Review and select**
Share relevant profiles for your evaluation, with a demo or interview where appropriate.

04 **Agree commercials & scope**
Confirm the engagement model, payment route, trainer approval, confidentiality and ownership.

05 **Deploy & support**
Coordinate agreed delivery readiness, escalation, feedback and closure responsibilities.

Multidisciplinary capability network

AI/ML · Cloud · Cybersecurity · Software & data · IoT · SAP/ERP · Banking & insurance · Manufacturing · Renewable energy · Pharma · Leadership · Aptitude · STEM · Entrepreneurship

Quality over volume

Profiles are shared for assignment-specific review, not as generic database submissions.

Professional boundaries

Mutual NDA, non-circumvention and communication ownership can be formalized.

Selected working associations: Biotech Cell, Data Valley, Fixity and independent training providers (founder-reported; engagements vary by scope).

LET'S DISCUSS YOUR NEXT REQUIREMENT

The right trainer. The right engagement. One reliable channel.

Whether you have a live requirement, a difficult assignment or want to expand your vendor network, we are open to a conversation.

Share your requirement.

Send the subject, audience, location and tentative dates. We can discuss feasibility and the appropriate engagement model.
